WAGYU

"the joy of eating"

OAKEY PREMIUM WAGYU

Oakey Premium Wagyu is award-winning Australian beef.

With its high marbling content, it is renowned for outstanding eating quality. Because of its fine texture, you are assured 'melt-in-your-mouth' flavour, tenderness and juiciness. And it is sourced using the two most proven marbling breeds – Fullblood Wagyu and Angus.

Raised in the cooler climates of Australia, our F1 Wagyu transition to a specifically designed grain ration for a minimum 350 days to produce guaranteed 3 to 9 marble scores to cater for all levels of taste and palates.

It is 100% Australian and 100% free of hormone growth promotants (HGP).

With over 40 years of experience in the Australian beef industry as a vertically integrated company, we own and operate each step of the production process.

From breeding and cattle selection through to finishing and processing, we provide complete traceability from our paddock to your plate.

Experience the joy of eating Oakey Premium Wagyu today.
